

Platform JCS

Platform JCS Supervisor Dashboard:

Training Platform Overview

Achieving optimized decision-making for operational success. Designed specifically for JCS Company.

The platform focuses on assessing the prior knowledge and post-training performance of all staff for efficient branch management.

Dashboard Purpose & Objectives

Data-Driven Decisions

Facilitate informed decision-making through comprehensive visualization and data filters.

Performance Evaluation

Evaluate the effectiveness of managers and recruiters in both pre-training and post-training.

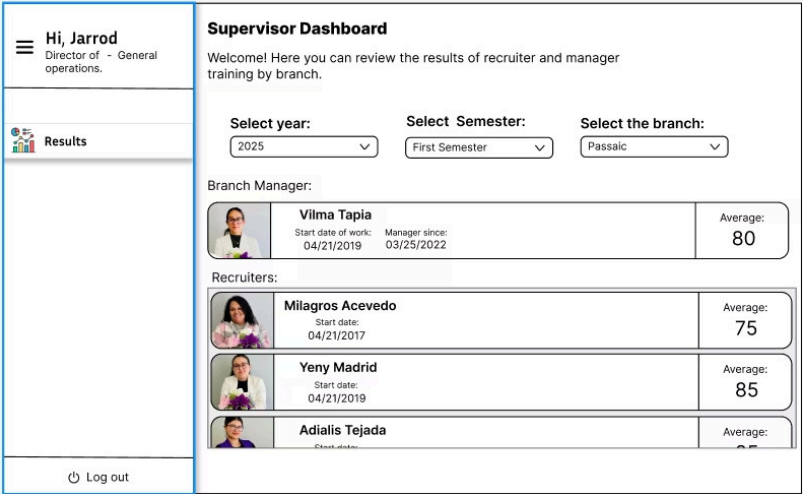

Branch Comparison

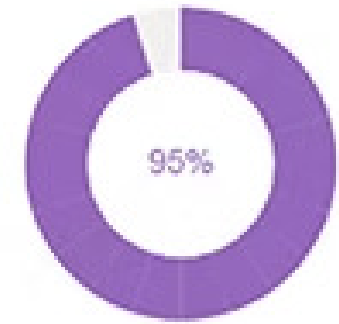

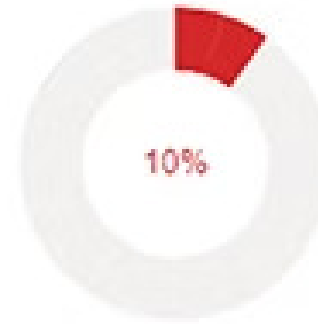

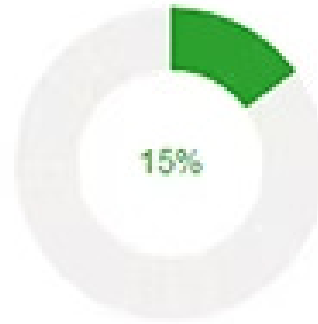

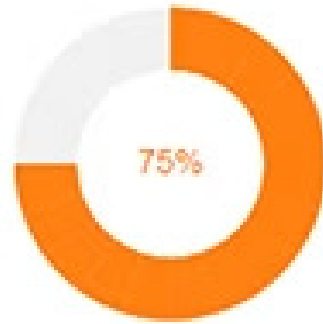

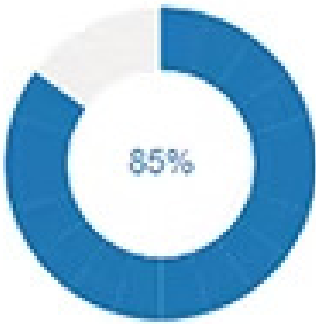

Compare metrics from different branches to identify best practices and maximize the effectiveness of all branches.

Targeted Improvement

Identify specific areas that require attention to optimize operations.

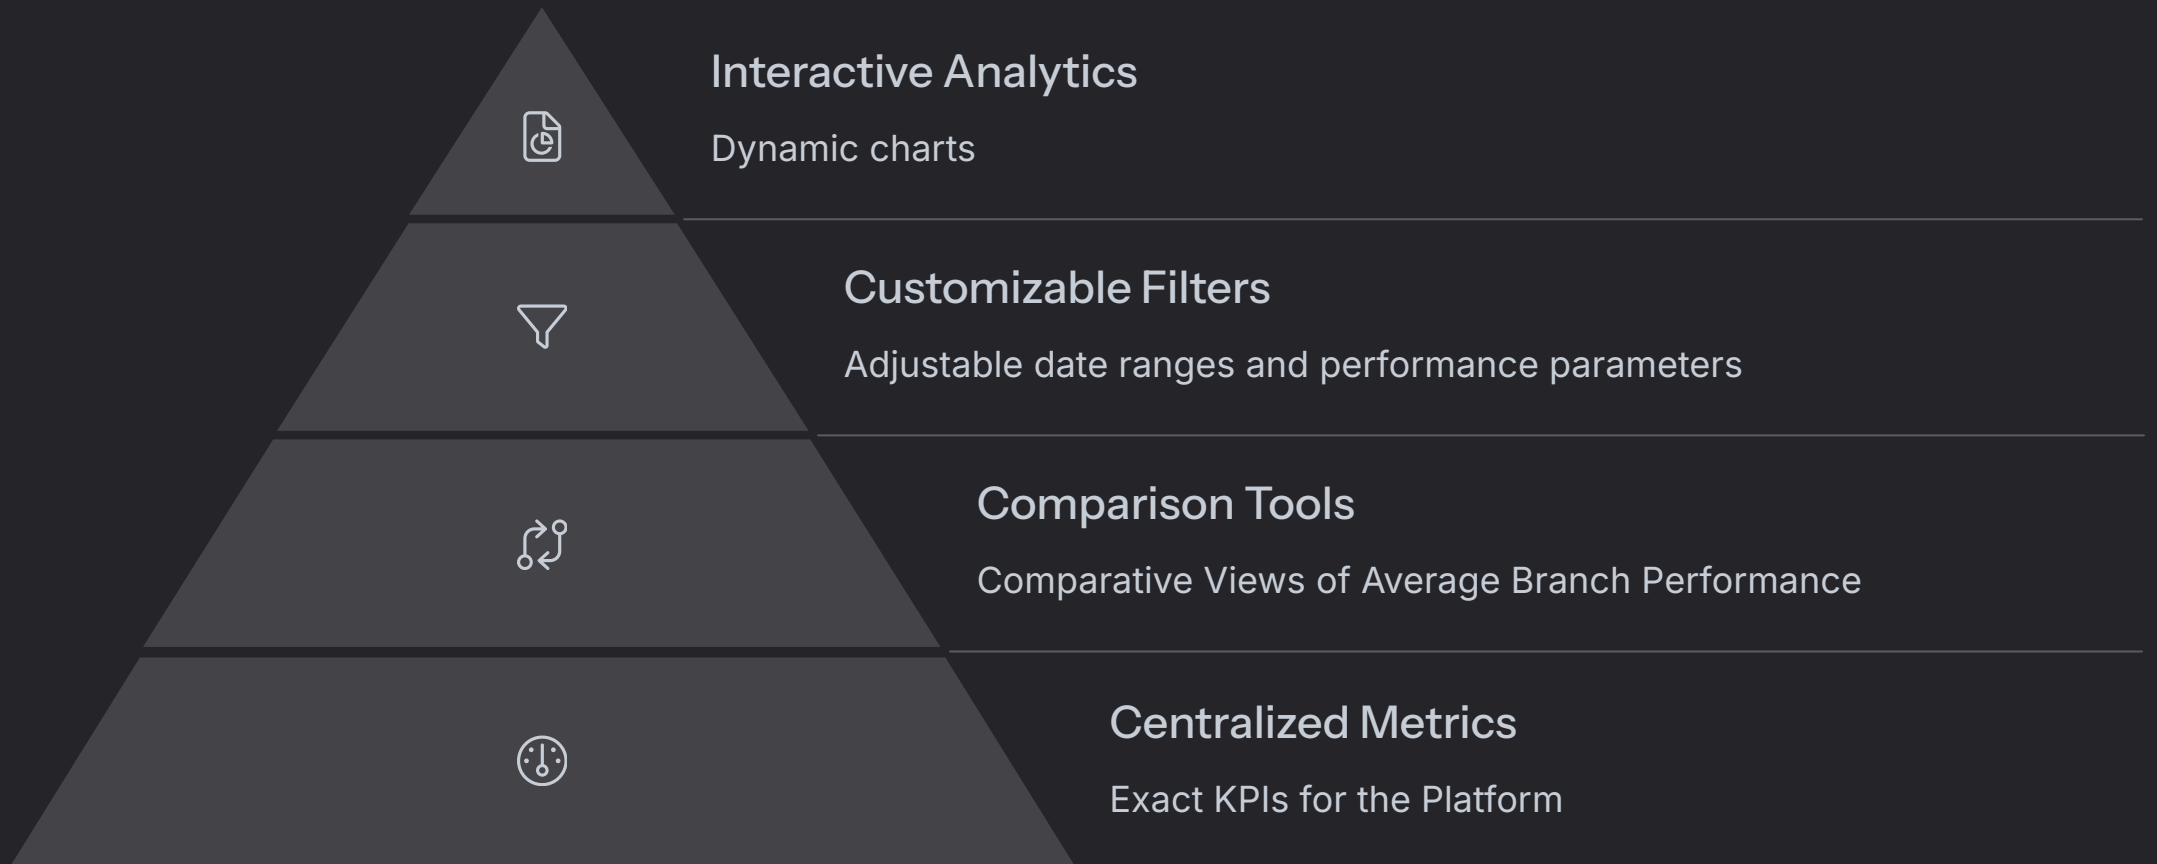

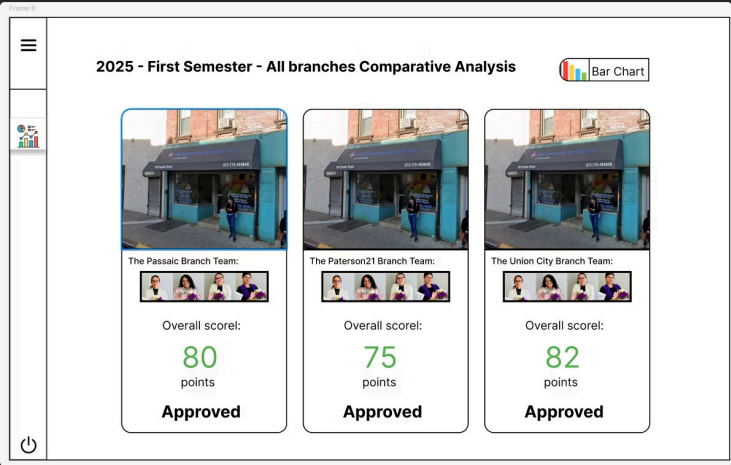

Key Performance Indicators (KPIs)

KPI	Description	Formula	Target
Training effectiveness	Improvement in pre/post score	$\frac{(\text{Score post} - \text{Score pre})}{\text{Score pre}} \times 100$	>15%

Dashboard Design: At-a-Glance Overview

Branch Performance Comparison

Visual Comparison

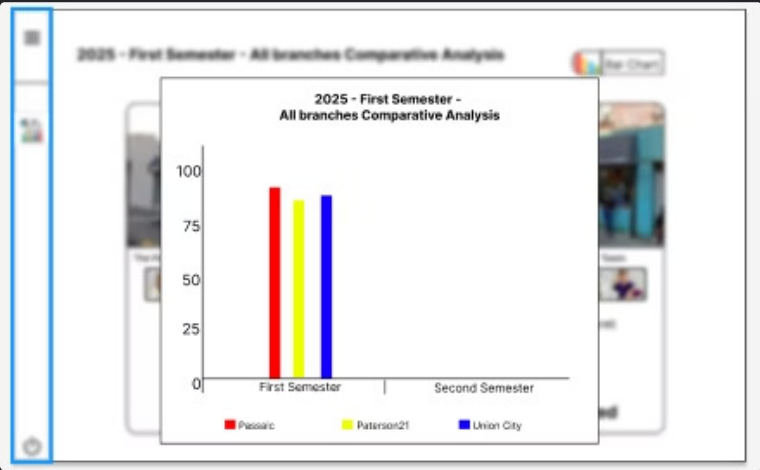

Color-coded indicators highlight performance variances between branches.

Detailed Analysis

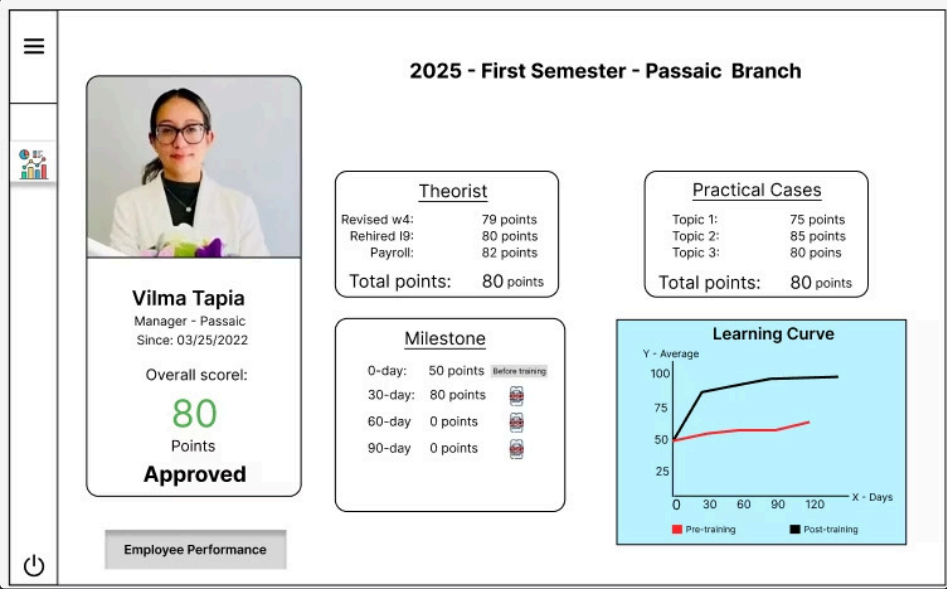

The functionality of the location determines the approval of a branch.

Trend Tracking

The historical data shows the evolution of the yield at the length of the time as 30/60/90 days.

Performance Evaluation

Recruiter Performance Analysis

Individual Metrics

Track each recruiter's key performance indicators.

Performance Ranking

Compare recruiter effectiveness across teams. Highlight top performers and those needing additional support.

Training Impact

Measure performance changes after training completion. Recruiters with advanced training show 15% higher effectiveness rates.

Conclusion: Empowering Data-Driven Decisions

100%

Visibility

Full transparency of the effectiveness
measures of all branches

>15%

Efficiency

Average improvement after
implementing targeted training

2x

ROI

Return on training investment through
optimized operations

The Supervisor Dashboard empowers informed decision-making. It enables targeted interventions and supports continuous improvement in recruitment processes.

Training Impact: Optimize Branch Structure

Quality Over Quantity

Four trained recruiters outperform five untrained staff members.

- % reduction in salary expenses
- % decrease in operating costs

Data-Driven Staffing

Our platform precisely determines optimal recruiter headcount per branch.

- Branch-specific staffing models
- Real-time performance tracking

Strategic Talent Allocation

Performance metrics identify high-potential team members.

- Leadership candidate identification
- Cross-branch recruiter reallocation
- Skill gap analysis for targeted training

This is just the beginning...

Ongoing monitoring and evaluation will be crucial to maintaining and improving the effectiveness of branch operations using the JCS Platform, but we envision expanding this JCS-specific platform to:

**Recording and maintaining
employee information**

**Request for absences
or vacations**

Worker Compensation

**Requests for
pregnancy leave**

Future Projection

**Requests for
sick days, days off**

Salary increases

Promotions

Transfers

Thank You For Your Attention

We appreciate you taking the time today to explore the capabilities that the JCS Platform has and can offer.
